

Incredible XL Matched Pair Of Late 18th C. Walnut Mountain Dinning Tables (Table 1)

An Incredible rare matched pair of walnut dinning tables from the mountainous region of Trás-os-Montes in northern Portugal.

Constructed in thick slabs of solid walnut in the late 18th C.

Beautifully simple in design, likely from the manor house of a substantial rural estate.

Heavily patinated with many age old repairs.

Recently sympathetically restored in our London workshop.
